Organisation (if applicable):

I wish to apply for Land for Wildlife registration for my property at:

Land for Wildlife began in Victoria in 1981 to help restore wildlife on farms.

In Queensland, the program is administered by Greening Australia and is delivered by Local Governments, Regional NRM Bodies and community organisations.

In South East Queensland, Land for Wildlife is managed by SEQ Catchments and Local Governments.

Support and Recognition for Private Landholders in Nature Conservation

All photographs taken on Land for Wildlife properties in South East Queensland. Land for Wildlife gratefully acknowledges all landholders involved in the development of this brochure. Powerful Owl photo by Neil Anderton. Before and after restoration images thanks to Jim and Pat Ledwith and Peter Copping.

What can we achieve?

Together, Land for Wildlife members can:

- **learn** about native plants, wildlife and ecosystems
- **restore** degraded lands through revegetation and natural regeneration
- **reduce weeds** and soil erosion
- **create wildlife corridors**
- **improve water quality** in creeks and rivers
- **help** bring back our **threatened species**
- **protect** remnant forests, woodlands and grasslands
- **integrate** nature conservation with other farming activities
- **inspire** each other

What is Land for Wildlife?

Land for Wildlife is a voluntary program that encourages and assists landholders to provide habitat for wildlife on their properties. The program is free.

Whether you manage a large farm or small bush block, Land for Wildlife can offer you advice and assistance on:

- **local plants, wildlife, threatened species, and ecosystems**
- **weed control** and feral animal management
- **revegetation** and habitat restoration
- **incentives** available to help private landholders create, improve and protect wildlife habitat
- integrating wildlife conservation with other land management activities.

In addition to **individualised property advice**, Land for Wildlife also offers free workshops, **field days**, regular newsletters and opportunities to **meet other like-minded landholders**.

A Land for Wildlife sign is provided free of charge to registered landholders to acknowledge their efforts in and commitment to wildlife conservation.

Does my property qualify?

Land for Wildlife welcomes landholders who:

- manage part or all of their property as habitat for native plants and animals
- are interested in integrating nature conservation with other land uses, such as agriculture, grazing or tourism
- have a property with at least 1 hectare of native vegetation (exceptions may apply for educational, community-owned or other properties).

A “working towards” registration category is available for landholders who do not qualify for full registration at the first property visit. Advice will be given to help the landholder work towards full registration.

Neighbouring properties may join together and apply for group registration.

Land for Wildlife registration does not alter the legal status of a property, convey the right of public access, nor represent an official wildlife sanctuary.
